Applicant's amendment, filed 23 July 2004, places independent claims 1, 10, 23, and 25 and all claims dependent thereof in condition for allowance and is hereby entered.

Allowable Subject Matter

Claims 1-20, 23, and 25 are allowed.

Claims 21, 22, 24, and 26 are cancelled.

The following is an examiner's statement of reasons for allowance:

According to the final office action, filed 08 June 2004, the limitations recited in claims 21, 22, 24, and 26 were not taught by the cited prior art. The examiner's reasons for indicating these claims as allowable are recreated below for convenience.

"Claims 21, 22, 24, and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 21 is limited to the invention of claim 1, as covered by Snow in view of Stewart. Stewart discloses an IWC that includes a first and second differential port. Stewart discloses receiving a line signal (i.e. IWC is configured to receive a first differential signal from the SLIC at the first differential port) and provide an output to a trunk line (i.e. and a second differential signal from the CODEC at the second differential port). Stewart also discloses that the hybrid amplifier performs 2-4-wire conversion (Stewart, column 4, lines 23-27), however, this results in a third port connected to the CODEC instead of being connected to the SLIC. Therefore, Snow in view of Stewart makes obvious all limitations of the claim with the exception of a third differential signal provided to the SLIC at the third differential port. Thus, claim 21 is allowable.

Claims 22, 24, and 26 are essentially the same as claim 21 and are allowable for the same reasons."

The applicant has rewritten the independent claims 1, 10, 23, and 25 so they include the allowable matter mentioned above. Thus, claims 1, 10, 23, and 25 and all claims dependent thereof are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
